Desenvolver peças de apurado design é na TUPAI um objectivo natural. Tornar esse design contemporâneo uma perspectiva de futuro. A TUPAI acredita, sempre, que o futuro se constrói, dia a dia, peça a peça, acessório a acessório. Mas mais do que ser um acessório do projecto, a TUPAI pretende ser o complemento incontornável. Os novos espelhos - 0 mm / 1,5 mm / 5 mm -, apesar de serem um grande avanço tecnologicamente contemporâneo, a sua presença pretende-se quase imperceptível. Por esse motivo a TUPAI designou-os como linha

minimal.

Developing products with a perfect design is a natural aim at TUPAI. Making this contemporary design a future view. TUPAI believes that the future is built step by step, piece by piece, accessory by accessory. More than being a project accessory, TUPAI intends to be an indispensable complement. New plates - 0 mm / 1,5 mm / 5 mm -, in spite of being a great contemporary technological advancement, its presence is meant to be almost imperceptible. Thus TUPAI appointed them by

minimal line.
